

## Stella Wisgrill for Faculty Board Representative

sw728@cam.ac.uk

My name is Stella and I'm a third year Art Historian originally from Austria. I am enthusiastic about the things that go on behind the scenes in our Faculty and would love to represent your interests when it comes to academic policy, resources and other key Faculty issues.

### *Why me?*

With a track record as Student Representative I am experienced in negotiating the best results for UGs:

- In the past this has included fair and transparent Revision Supervision arrangements

During board meetings I would like to raise any issues or suggestions you might have in a diplomatic yet convincing way.

My experience of liaising with the different interest groups within the faculty means that I know how best to bring about desired change.

### *Actions:*

Being the representative for all History of Art UGs I would improve communication across the year groups by creating a Facebook group that encourages debate on faculty policy and quality of teaching.

### *Someone who's already convinced*

"As Student Representative Stella has been wonderfully approachable, committed and dynamic - and always takes the lead when anything needs sorting out, whether it's a complicated administrative task or speaking up and representing us to the rest of the board" - Anna McGee
